

Prosperity PEO

Building Partnerships...Driving Success

Good Evening,

There has been a lot of talk and information about how business owners can help protect the physical health and safety of their employees. However, as you know, protecting their mental and emotional well-being is also very important. The current uncertainty regarding COVID-19 can be very stressful to your employees and their families. Prosperity PEO is here to help.

As part of the benefits available to our clients, Prosperity PEO provides access to an **Employee Assistance Program (EAP)**. This program, administered by Managed Care Concepts, is available to all of our clients, their employees and the employee's dependents. The EAP is confidential and there is never a cost to you or your employees for using this service.

How Do Employees Or Family Members know if they need to use the Employee Assistance Program (EAP)?

They may need to talk to an Employee Assistance Program (EAP) counselor if:

- | |
|---------------------------------------------------------------------------------|
| • They spend most of the day worrying about a particular problem. |
| • They find themselves relying on drugs or alcohol to get them through the day. |
| • They realize they have a problem, but do not know where to go for help. |
| • Their job, health, or family life is affected by a specific problem. |

To access the EAP, call 1-800-899-3926. The employer name is Prosperity PEO. Please remind your employees this service is confidential, therefore we do not receive the names of the people who utilize this service.

An information sheet is attached. We also have brochures you can distribute to your employees and a poster that can be displayed in your office. If you would like these items sent to you, please let us know.

Prosperity PEO remains committed to assisting you and your employees.

All the best,

The team at Prosperity PEO
